SKILLS SUMMARY

Malcolm Gladwell states that mastery over a skill can only be achieved by 10,000 hours of work on it. I summarise my software skills in hours of work on that skill because I find this as a good proxy for expertise.

- **Software**: R ($\approx$ 4100 hrs), Stata ($\approx$ 5100 hrs), Markdown ($\approx$ 1500 hrs), LaTeX($\approx$ 3200 hrs))
- **Microsoft**: Word (Advanced), Excel (Intermediate), Powerpoint (Advanced)
- **Languages**: Spanish (Native), English (Fluent), German (Advanced), French (Basic)

PROJECTS

- **Does social insurance improve health? Evidence from Seguro Popular in Mexico**: I study whether Seguro Popular, a mexican social insurance scheme, helped in reducing the mortality rates. Out of the five outcomes I measure, Seguro Popular reduced mortality in only one of them, namely, high blood-pressure related deaths. This project is my undergraduate thesis.
- **The price externalities of a junk food ban.**: I study whether *mom's and pop's* stores increased their junk food prices due to the government prohibiting the sale of these items within schools in Mexico. (Work in progress - 2023)

PUBLICATIONS FOR WHICH I WAS AN RA
